

# Seminar in Automated Mineralogy

## Celebrating 40 years of development

*Prof Alan R Butcher (research professor in Geomaterials & Applied Mineralogy at the Geological Survey of Finland, GTK) will present an historical retrospective based on his experiences with the development and implementation of automated mineralogy techniques in the fields of ore geology, mineral processing, as well as a few surprises. This talk will appeal to all those who have used the technique, or those who want to learn more about it, and it will also cover some aspects of future development.*

Prof Alan Butcher

**Monday 22/5 2017**  
**At 10:00 in F-341**

*All welcome!*
