

# paper Chain

Seminar on the development of circular economy models centred in the valorisation of the waste streams generated by the Pulp and Paper Industry as secondary raw material for a number of resource intensive sectors: construction sector, mining sector and chemical industry.

June 12th, 13.00-15.30  
Room F-1031, Luleå University of Technology

The seminar is organised by the projects Paperchain and GLAD jointly.
