

ACTIVE

International conference on Active Commuting and Technology Interventions Within Environment

We would like to invite to an international conference **10th of February 14.00-18.00 (GMT+1)** at <https://ltu-se.zoom.us/j/6248071773>

Partners and associates in our Vinnova financed project SICTA 2.0 Sustainable Innovation for Children Transporting Actively, for example University of Texas at Austin, Granada University, LIKES research center, Linköping University, Swedish national road and transport research institute, Dalarna University, Public health agency of Sweden.

Titles, presenters and abstract are listed below. If you are a presenter and haven't sent in an abstract yet you can e-mail it to anna-karin.lindqvist@ltu.se

We suggest a format of **8 minutes presentations** with the possibility for Q&A on the chat.

Please sign up for the conference using this link: <https://simplesignup.se/event/176344>

You can also consider if there are people outside your research teams that you would like to invite to the conference as participants.

You have an opportunity to test the technology (show your powerpoint) Tuesday 9:th at 15.00-15.30 (GMT+1)

Program

14.00-14.10. Our starting point - Rationale for the conference
Presenter: Anna-Karin Lindqvist, PhD, project leader for SICTA 2.0 Sustainable Innovations for Children Transporting Actively, Lulea University of technology

14.10-15.00 Developing school areas with infrastructure analysis to increase active school transportation
Presenters: Joonas Niemi, LIKES Research Centre for Physical Activity and Health, Jyväskylä Finland, Sanna Ojajarvi, Network of Finnish Cycling Municipalities, Finland

Unity for an active community - participants experiences of a schoolbased intervention to promote active school transportation

Presenter: Eva Savolainen, PhD-student Lulea University of technology

Feasibility and implementation of a cycling school-based intervention in adolescents
Presenter: María Jesús Aranda-Balboa, PhD Student University of Granada

Objective Measures to Assess Active Commuting Physical Activity to School in Young People:
A Systematic Review Protocol, preliminary results and practical considerations
Presenter: Pablo Campos- Garzón, PhD Student University of Granada

Critical issues in health economic assessments of PA interventions targeting children and adolescents: A policy perspective
Presenter: Kristina Ek, Professor Lulea University of technology

15.00-15.10 Break

15.10-15.40 What matters? An exploration of the parental decision making process regarding AST- guided by the Theory of planned behavior
Presenter: Hanna Forsberg, PhD-student Lulea University of technology

Parental perceptions... do we have to consider them to determine the mode of commuting of their children?

Presenter: Francisco Javier Huertas-Delgado, Lecturer, PhD University of Granada

Traffic safety from different perspectives - work in progress

Presenter: Charlotta Johansson, Professor Lulea university of technology

15.40-16.10 Riskify in break-out rooms and break

16.10-17.00 School commute with public transportation as a source of physical activity
Presenters: Jouni Kallio, Joonas Niemi, Harto Hakonen, Heidi Lindfors, Tuija Tammelin
LIKES Research Centre for Physical Activity and Health, Jyväskylä, Finland

Active commuting to school and independent mobility in Spanish children and adolescents
Presenter: Patricia Gálvez-Fernández, PhD Student University of Granada

Active, public or private transport: how the transport mode change along schooling?

Presenter: Manuel Herrador-Colmenero, Lecturer, PhD University of Granada

Commuting patterns, sociodemographic characteristics, and new variables of commuting behaviours in Chilean university students

Presenters: Ximena Palma Leal, PhD student University of Granada

International Study of Movement Behaviors in the Early Years (SUNRISE): experiences and lessons learnt from SUNRISE Sweden's Pilot and protocol for the main study 2021

Presenter: Christine Delisle Nyström post doc Karolinska Institutet, Ellinor Nilsson research assistant Linköping University

17.00-17.10 Break

17.10-17.50 Contextual Mini Games for Computational Thinking: The case of Nigeria
Presenter: Friday Agbo, PhD-student University of Eastern Finland.

School-Based Interventions for Promoting Physical Activity Using Games and Gamification:
A Systematic Review Protocol publication and preliminary results
Presenters: Romina Gisele and Saucedo Araujo, PhD students University of Granada

SMART Project, an in school and online PA intervention.
Presenter: Darla Castelli, Professor University of Texas at Austin

The Smart City Active Mobile Phone Intervention (SCAMPI) study to promote physical activity
through active transportation in healthy adults: results and lessons learned
Presenter: Christina Alexandrou, Emmie Söderström PhD students, Linköping University

17.50-18.00 Final speech
Presenter: Marie Lof, Professor Linköping University
