Scientific output

Research exams:

Doctor of philosophy

Licentiate

Publications 1995-

45. Li, Q., Creaser, D., and Sterte, J. "The Synthesis of Small Colloidal Crystals of TPA-
silicalite-1 with short Synthesis Times and High Yields", in Porous Materials in
Karge. Elsevier, Amsterdam, 1999, p. 133

Polished α-Alumina Wafers Using a Seeding Technique", in Porous Materials in
Karge. Elsevier, Amsterdam, 1999, p. 181

Spectroscopic Study of the Growth of Silicalite-1 Films on Seeded Gold Surfaces", in
Porous Materials in Environmentally Friendly Processes, Eds. I. Kiricsi, G. Pál-

Macrostructures", in Porous Materials in Environmentally Friendly Processes, Eds. I.

49. Creaser, D., "Crystal Population Balance Model for Nucleation and Growth of
Colloidal Silicalite-1", in Porous Materials in Environmentally Friendly Processes, Eds.

50. Li, Q., Creaser, D., and Sterte, J., "The Nucleation Period for TPA-silicalite-1
Crystallization Determined by a Two-stage-varying-temperature Synthesis",

Spectroscopy Study of the Structure of Silicalite-1 Films on a Gold
Surface".Microporous and Mesoporous Materials, 32, 297 (1999)

Spectroscopic Study of a gamma-mercaptopropyltrimethoxysilane monolayer on a

53. Schoeman, B. J., Babouchkina, E., Mintova, S., Valtchev, V. and Sterte, J., "The
Synthesis of Discrete Colloidal Crystals of Zeolite Beta and their Application in the

55. Ravishankar, R., Kirschhock, C. E. A., Knops-Gerrits, P-P., Feijen, E. J. P., Grobet,
P. J., Vanoppen, P., De Schryver, F. C., Miehe, G., Fuess, H., Schoeman, B. J.,

54, 4365 (1999)

111. Perdana, I., Creaser D., Öhrman O., and Hedlund J., "NOx adsorption over a wide temperature range on Na-ZSM-5 films", Journal of Catalysis, 234, 219 (2005)
