- Lukaszewska E., Fragiacomio M. and Johnsson H. (2011) *Time-dependent behaviour of prefabricated timber-concrete composite floors: Part 1: Experimental testing*. Engineering Structures.
- Johnsson H. and Plusotchowicz G. (2011) *Prediction model for plug shear failure in nailed timber connections*. Submitted to Materials & Structures.
- Parida G., Johnsson H. and Fragiacomio M. (2011) *Provisions for ductile behaviour of timber-steel connections with multiple glued-in rods*. Submitted to Journal of Structural Engineering.
- Meiling, J., Backlund, F., Sandberg, M. & Johnsson, H. (2012) *Continuous improvements through stepwise problem solving: a study within off-site construction*. Journal of Construction Engineering and Management, published online January 2012.
- Jensen P., Olofsson T. and Johnsson H. (2012) *Configuration through the parameterization of building components*. Automation in Construction 23:1-8.

Johnsson H. (2013) *Production strategies for house-building: exploring platforms for product development*. Construction Management and Economics, 31(9), pp 941-958.

Parida, G., Fragiacomio, M. and Johnsson, H. (2013) *Prefabricated timber walls anchored with glued-in rod connections: racking tests and preliminary design*. European Journal of Wood and Wood Industries 71(5), pp 635-646.

Lennartsson M., Johnsson H. and Meiling J. (2012) *FMEA in the engineer-to-order situation in construction*. Manuscript intended for Journal of Production Economics.

Johnsson H. and Parida G. (2013) *Prediction model for plug shear failure in nailed timber connections*. Published on-line in Materials & Structures, jan 2013.

Jansson G., Johnsson H. and Engström D. (2013) *Platform Use in Systems Building*. Construction Management and Economics, e-publ ahead of print.

Meiling, J., Sandberg, M. and Johnsson, H. (2013) *A study of a plan-do-check-act method used in less industrialized activities: two cases from industrialized housebuilding*. Construction Management and Economics, e-publ ahead of print.

Articles published and presented at international conferences

Stehn, L. and Johnsson, H. (2000). Engineering Ductility Assessment for a Nailed Slotted-in Steel Connection in Glulam. In proceedings from *International Council for Research and Innovation in Building and Construction, Working Commission CIB-W18*, paper 33-7-4, meeting 33, Delft, the Netherlands

Johansson, H. and Stehn, L. (2002). Effects of Joint Geometry on the Shear-Plug Failure in Nailed Timber Connections: . In proceedings from *World Conference on Timber Engineering*, Shah Alam, Malaysia, Aug. 2002

Johnsson, H. (2003). Plug Shear Failure in Nailed Timber Connections: Experimental Studies. In proceedings from *International Council for Research and Innovation in Building and Construction, Working Commission CIB-W18*, 36-7-2, Estes Park, Colorado, USA

Johnsson, H. and Stehn, L. (2004). A Linear Fracture Mechanics Evaluation of Plug Shear Failure. In proceedings from *World Conference on Timber Engineering*, Lahti, Finland, June 2004

Johnsson, H., Lukaszewska, E. and Stehn, L. (2004). Nailed Timber Joints with a Thick Interlayer. In proceedings from *World Conference on Timber Engineering*, Lahti, Finland, June 2004

Johnsson, H. (2004). Plug Shear Failure: The Tensile Failure Mode and the Effect of Spacing. In proceedings from *International Council for Research and Innovation in Building and Construction, Working Commission CIB-W18*, paper 37-7-6, Edinburgh, UK, Aug. 2004

Lukaszewska, E., Johnsson, H. and Stehn, L. (2006). Connections for a Timber-Concrete Composite Floor. In proceedings from *World Conference on Timber Engineering*, Portland, U.S.A., August 2006

Meiling, J. and Johnsson, H. (2007). Sustainability in Industrialised Wood Construction - a Theoretical Framework. In proceedings from *Nordic Workshop on Wood Engineering*, <http://epubl.ltu.se/1402-1528/2007/06/LTU-FR-0706-SE.pdf>, Skellefteå, February 21

Johnsson, H., Persson, S. and Malmgren, L. (2007). IT-support for Industrial Production of Timber Houses - the Swedish Case. In proceedings from *International Council for Research*

and Innovation in Building and Construction, Working Commission CIB-W78, Maribor, Slovenia, June 2007

André, A. and Johnsson, H. (2008). Flax Fibres for Strengthening of Timber Structures - Finite Element Modelling. In proceedings from *13th European Conference on Composite Materials*, Stockholm, Sweden, 2-5 June, 2008.

Tlustochowicz, G. and Johnsson, H. (2008). Displacements in the Stabilizing System of a Glulam Beam-and-Post System. In proceedings from *World Conference on Timber Engineering*, Miyazaki, Japan, 2-5 June, 2008.

Jansson, G. and Johnsson, H. (2008). Concurrent Engineering in Educational Projects: Case Study Svartöberget. In proceedings from *CIB-W78 25th International Conference on Information Technology in Construction*, Santiago, Chile, 15-17 July, 2008.

Meiling, J. and Johnsson, H. (2008). Experience Feedback at Industrialised House Builders. In proceedings from *International Group of Lean Construction, IGLC-16*, Manchester, UK, 16-18 July 2008.

Jansson, G., Söderholm, E. and Johnsson, H. (2008). Design Process Organisation at Industrial House Builders: a case study of two timber housing companies in Sweden. In proceedings from *Association of Researchers in Construction Management, ARCOM*, Glamorgan, UK, 1-3 Sep, 2008.

Meiling J. and Johnsson, H. (2008) Feedback in industrialised housing, why does it not happen? In proceedings from the *24th Annual ARCOM Conference*: 1-3 September 2008, Cardiff, UK, Association of Researchers in Construction Management pp.145-154.

Johnsson H. and Sardén Y. (2008) Industrialised timber housing: from trial to production. In proceedings from the *24th Annual ARCOM Conference*: 1-3 September 2008, Cardiff, UK, Association of Researchers in Construction Management, 2008. s. 155-164.

Söderholm E. and Johnsson H. (2009) Housing design performance - how is it measured? Proceedings of the *25th Annual ARCOM Conference*. Association of Researchers in Construction Management, pp. 281-290.

Johnsson H. (2011) The Building System as a Strategic Asset. In proceedings from the *6th Nordic Conference on Construction Management and Organisation*, April 13-15, Copenhagen, Denmark.

Johnsson H. (2013) The Daily Life of a Construction Contractor – Multiplicity in Production Strategies. In proceedings from the *7th Nordic Conference on Construction Economics and Organisation*, Trondheim, Norway, June 13-15, 2013.

Jansson, G., Johnsson, H. & Jensen, P. (2013) Modularization in a housing platform for mass customization. In proceedings from *Association of Researchers in Construction Management, ARCOM*, Reading, UK, 2-4 Sep, 2013.

Monographs

Johansson, H. (2001). *Systematic Design of Glulam Trusses*. Lic. Thesis, Div. of Timber Structures, Luleå University of Technology, 2001:07, ISSN 1402-1757.

Johnsson, H. (2004). *Plug Shear Failure in Nailed Timber Connections - Avoiding Brittle and Promoting Ductile Failures*. Doctoral thesis, Div. of Timber Structures, Luleå University of Technology, 2004:03.

Johnsson H., Persson S., Malmgren L., Tarandi V. and Bremme J. (2006) *IT support for industrialised timber construction (in Swedish)*. Luleå Univ. of Technology, report, pp. 53.

Johnsson H., Stehn L., Lessing J. and Engström D. (2012) *Industriellt byggande i Sverige*. Course book, Luleå University of Technology.
