Reference: **Final-year master student in Natural Resource Engineering with international exchange experience seeking the Project Management position in wastewater as a resource at IVL, Ref#1425.**

Dear Emma Björk,

I have been reading with interest about your recent expansion into the growing field of wastewater as a resource and when I saw that you are looking for a junior project manager, I knew I had to apply. I am about to graduate with a master in Natural Resources Engineering with focus on water and waste management and I am passionate about how we can make a positive impact on clean drinking water.

During my university studies, I developed a strong background in chemistry and geoscience. When I worked as a chemistry intern, I maintained accuracy while ensuring that the sampling was done correctly. This is an area where I excel and a trait that I believe will benefit IVL. In my final independent research project, I focused on the testing of sludge and waste water and I am keen to continue working in this research area. Additionally, I am familiar with hazardous management as it relates to water security. In my role as a summer recycling manager, I took part in special training to learn of the proper disposal of hazardous wastes and how it can affect recycled drinking water.

I enjoy setting very high goals for myself and I am not afraid of hard work. As a former competitive swimmer, I learned to manage my time wisely and understand the value of setting many short-term objectives with the ultimate purpose of reaching a long-term goal. I am also an effective communicator. During my exchange experience in China, I was a student representative for Nordic students working with others from various cultural backgrounds where it was imperative that we work together to achieve common goals for the association.

Thank you for taking the time to consider my qualifications and the potential value I could bring to the junior project management position. If you would like to meet me in person so we could discuss this further, please feel free to contact me.

Best regards,

Andreas Dahlin

## PROFILE

Highly motivated, final-year master student in Natural Resource Engineering with international exchange experience and a desire to improve the way society's water and waste is managed.

## EDUCATION

2014-  
Present **Direct Master in Natural Resource Engineering**, Luleå University of Technology, Luleå  
Specialisation in Environment and Water. Investigated how contaminants in soil and water spread, using ecological concepts and how society's water and waste management works.  
Expected completion: June 2019

Exchange Studies: University of Nottingham Ningbo, Zhejiang, China (2016)  
Courses in: Advanced Transport Phenomena, Air Pollution, Process Dynamics and Control, and Hazardous Waste Management.

2011-2014 **Upper Secondary School Diploma in Natural Resources**, Åva Gymnasium, Täby

## WORK EXPERIENCE

June-Aug  
2018 **Chemistry Intern**, Käppalaförbundet, Lindigö  
Collected samples and tested water in 11 municipalities; Conducted standard analyses of COD, TOC, HCl, Alkalinity, pH & EC

May-Aug  
2017 **Summer Recycling Manager**, Luleå Renhållning AB, Luleå  
Directed customer to use proper disposal of various household waste and hazardous waste; Included a course in proper management of hazardous waste; Provided excellent customer service

2014-2016 **Elderly Care Worker**, Älvgården – Municipality of Luleå, Luleå  
Distributed medicine; Planned, organised and carried out activities for the residents; Helped residents with daily activities including cleaning, shopping and various errands

## VOLUNTEER EXPERIENCE

Sept 2018-  
Present **Jobraising Organizer**, IAESTE Sweden, Luleå  
Plan and organise events for up to 200 participants; Contact companies for sponsorship

Aug-Dec  
2016 **Student Representative**, Exchange Student Association, University of Nottingham Ningbo, Zhejiang, China  
Ensured student issues were presented to the school administration; Planned and organized events with exchange students from several different countries

## COMPUTER SKILLS

MS Office Suite – Very good knowledge

CAD – Basic knowledge

Adobe Photoshop and InDesign – Good knowledge

## LANGUAGES

Swedish – Native language

English – Fluent

Mandarin – Conversant
