3	4	5	Godkänd	Väl Godkänd	ECTS (A-FX)
☐	☐	☐	☐	☐	☐

Date of grading: _____

Intern supervisor: _____

Coordinator: _____

Important information for the thesis work

To be able to get your final thesis grade registered you must be both *term- and course registered*. The thesis work has to be *approved*, *registered* and published as a full text *pdf-file* at https://www.ltu.se/ltu/lib/Publicera/Publicera-examensarbete/Registrera-examensarbete-1.142838?l=en.

If the thesis shall be confidential a contract must be established and included in the archive record at the department according to prescribed rules. For more information contact the educational administration edusrt@ltu.se

Course registration

If you do not have a valid term- or course registration at the time of the completion of the thesis you must contact SRT educational administration edusrt@ltu.se .

Register and publish

When the thesis is completed you should create a cover page and register the report in DiVA. Use this link: https://www.ltu.se/ltu/lib/Publicera/Publicera-examensarbete/Registrera-examensarbete-1.142838?l=en

A couple of important details to remember:

- If there are two authors of the thesis out of which one is a program student and one a single course student you have to fill out two forms but with both names in both the forms.
- The thesis should be written in one single file in pdf-format with no front page.
- When you register your report you should also generate a cover page, by the library site.
- Remember to proof read the file thoroughly since it cannot be changed afterwards.
- It will take around 2 weeks before the thesis is available online.

For support contact the library: https://www.ltu.se/ltu/lib/Publicera/Publicera-examensarbete/Registrera-examensarbete-1.142838?l=en

Grade registration

The grade form should be signed by the intern supervisor and given to the SRT educational administration or the "Student service desk".

If you have any questions please contact your intern supervisor or SRT educational administration.

Good luck!
